Interconnect Solutions for e-mobility

IEC, SAE and GB/T

ITT

We Connect

The future of e-mobility

Drawing upon 100 years of interconnect excellence and nearly a decade of innovation in the Electric Vehicle industry, ITT represents a committed partner to today's e-mobility industry, bringing connection solutions to the market that are truly Engineered for Life.

Global solutions for the EV industry

The ITT difference

- Proven application expertise
- Global capabilities & local support
- Unrivalled customization expertise
- A committed innovator & business partner

About ITT

ITT is a diversified leading manufacturer of highly engineered critical components and customized technology solutions for the energy, transportation and industrial markets. Building on its heritage of innovation, ITT partners with its customers to deliver enduring solutions to the key industries that underpin our modern way of life. Founded in 1920, ITT is headquartered in Stamford, Connecticut, with employees in more than 35 countries and sales in a total of approximately 125 countries. For more information visit itt.com

IEC, SAE and GB/T e-mobility Interconnect Solutions

ITT's class leading UL and CE certified connectors, plugs, inlets, outlets and accessories offer recognized, trusted and proven charging solutions for today's e-mobility markets. Built in accordance with all key regional standards - IEC 62196 for Europe, SAE J1772 for the Americas and Japan and GB/T 20234 for China they provide a truly global portfolio.

ITT offers a fully comprehensive range of AC charging options— with an industry leading amperage range from 10A to 80A, single and triple phase variants, low contact resistance and a minimum of 10k mating cycles. In addition to off-the-shelf solutions our EV offering is fully customizable to meet specific requirements and we are able to offer variants on colors, harnesses and terminals.

By using common coupler connector/plug elements such as an ergonomically designed handle, robust contact system, innovative wire positioners and strain relief system ITT is able to serve global industry players with a consistent, recognizable look and feel to support their own product, user and brand experience.

Key features

- Up to 80A AC charging option
- Sealing to meet and exceed specifications
- Cable options certified and approved to regional requirements
- Low contact resistance
- Minimum 10k mating cycles
- Connector and plug strain relief provides protection from cable oversteering

An e-mobility leader

- A truly global product portfolio
- Extensive customization options
- A track record of EV innovation
- A pioneer in DC fast charging technology

Applications

- Home EV charging units
- Public charging stations
- Roadside assistance trucks
- Fleet trucks
- EV mass transit vehicles
- Electric watercraft
- Passenger vehicles
- Electric motorcycles
- Electric agriculture vehicles

IEC Gen 3 electric vehicle charging solutions

ITT’s IEC e-mobility solutions are built in accordance with IEC 62196-1 and IEC 62196-2 standards for AC single and three phase charging systems.

IEC performance data	
Temperature range	-30°C to +50°C
Durability	10,000 mating cycles minimum
Sealing requirements	IP 44 min per IEC 61851-1 and tested in accordance with IEC 60529
Certifications connector	CE, UKCA, VDE, DIN EN 62196-1 and DIN EN 62196-2
Certifications cable	EN 50620

Key features

- UV resistance with black matte handle surface
- Enhanced design eliminates screw visibility
- Textured coupler connector/plug handle – provides enhanced grip while in use.
- Compact and ergonomic for ease of use by consumers
- Optional mating face protection – lanyard dust caps options for coupler connector/plug and spring cap options for inlets provide additional protection when connectors are not in use.
- Rapid installation for charging station manufactures with enhanced cable design

SAE J1772 Gen 3 electric vehicle charging solutions

ITT's Gen 3 SAE J1772 couplers are sealed up to IP67 and built in accordance with SAE standard for AC level 1 and Level 2 charging systems.

J1772 performance data	
Temperature range	-30°C to +50°C
Durability	10,000 mating cycles minimum
Sealing requirements	IP67, meets UL50, type 3R/3S
Certifications connector	UL File E531874, PSE-JET on request
Certifications cable	UL62, JET on request

Key features

- IP67 sealing
- Integrated, one piece latching button providing water and freeze resistance
- Cable handling system not required with flexible, split wire cable design reducing cable diameter and weight
- Optional cold flex material for low temperature regions
- Optional mating face protection – one piece rubber dust caps options for coupler connector/plug provide additional protection when connectors are not in use.

AC Connector for J1772

GB/T electric vehicle charging solutions

ITT's GB e-mobility solutions are built in accordance with GB-T 20234 standards for charging systems.

GB performance data	
Temperature range	-30°C to +50°C
Durability	10,000 mating cycles minimum
Sealing requirements	IP54/IP55
Certifications connector	CQC 13029087619
Certifications cable	CQC 1103 or 1104

Key features

- Drain holes at the bottom of the coupler connector/plug – eliminates latch freezing and includes protective shield from small diameter metal penetration to the wiring.
- Textured coupler connector/plug handle – provides enhanced grip while in use.
- Optional mating face protection – lanyard dust caps options for coupler connector/plug and spring cap options for inlets provide additional protection when connectors are not in use.

J2CE Connector

Part Number Legend- J2CE

1	2	3	4	-5	6	7	8	-9
J2CE	16	1	1	-17	S	0	A	-001

1- Series	
J2CE	EVC SAE-J1772 Connector vehicle coupler
2- Current Rating -Cable Size by Level	
XX	16 - 16A (Level 1) 20 - 20A 30 - 30A (Level 2) 32 - 32A (Level 2) 40 - 40A (Level 2) 48 - 48A (Level 2) 75 - 75A (Level 2 with canted coil spring) 80 - 80A (Level 2 with canted coil spring)

3- Cable Rating	
1	Level 1
2	Level 2
4- Power System	
1	Single phase (120VAC for level 1, 240VAC for level 2)
5- Cable Length	
XXX	Length in 0.1m*XXX (017=1.7M)
6- Power Contact Type	
L	
S	

7- Cable Strain Relief	
0	Straight
8- Dust Cap (DC)	
A	No DC
C	DC stainless steel lanyard 155mm
D	DC stainless steel lanyard 125mm
E	DC PA lanyard 155mm
F	DC PA lanyard 125mm

9- Mod Code	
XXX	001 - 999 : customer specific
179	Handle in black color
273	Cold temperature (flexible) cable (only for current ratings 30A-80A)
276	Handles in black color + cold temperature (flexible) cable (only for current ratings 30A-80A)
261	Handles in black color, with matt finish

Dimensions shown in mm

Connect with the experts

ITT Cannon is a world leader in the design and manufacture of highly engineered solutions for global e-mobility markets.

Why ITT

ITT is a focused multi-industrial company that designs and manufactures highly engineered critical components and customized technology solutions. ITT's Cannon brand is a leading global manufacturer of connector products serving international customers in aerospace, defense, medical, industrial and transportation end markets. ITT's Connector business, which also includes the Veam and BIW Connector Systems brand, manufactures and supplies a variety of connectors and interconnects that make it possible to transfer data, signal and power in an increasingly connected world.
